Industry Case Study

Employability Skills Area: Performance

Assignment Name: 6IMS

Read the situation below related to the Employability Skills Area. Performance. Type a 150-word (minimum) response to this situation and make sure you answer the three questions in your response.

Situation:

IMS Gear has a standard work procedure that is commonly referred to as 6IMS. The following principles apply:

1. Safety - working safely in all areas
2. Sort - remove unused items
3. Set in order - a place for everything
4. Shine - clean and inspect- thorough cleaning
5. Standardize - set rules and procedures
6. Sustain - establish habits

The principles apply to standard lean management and the core functions of all employee's daily activities. 6IMS apply these concepts to make their environment, cleaner and more efficient.

Questions:

1. What is the first thing you should consider when approaching your daily activities?

2. How can you apply these work performance principles in your working environment?

3. Why is it important to have company principles that employees should follow?
